Carlisle SynTec Systems Names J. Stevens Construction Inc. to 2015 Perfection Council

(Carlisle, Pa.) – Carlisle SynTec Systems, a leading manufacturer of single-ply roofing materials, recently selected J. Stevens Construction Inc. to be a member of its 2015 Perfection Council. Made up of only 35 contractors, all selected based on their history of high-quality installations and excellent warranty claim performance, the Perfection Council acts as an advisory board to help Carlisle determine how to best support its contractor network in the upcoming year.

“Carlisle is pleased to acknowledge J. Stevens Construction Inc.’s dedication to exceptional workmanship by inviting them to be a part 2015’s Perfection Council,” said Nick Shears, Carlisle Construction Materials’ Vice President of Sales and Marketing. “J. Stevens Construction Inc. shares Carlisle’s commitment to excellence on every roofing project, and this makes their input invaluable in improving contractor support programs,” Shears continued.

To qualify for the Perfection Council, a contractor must, for each of the past seven years, have completed a minimum of 125,000 warranted square feet of Carlisle work on a minimum of five jobs per year. Honorees are then selected based on exceptional installation quality and warranty claim performance.

About Carlisle SynTec Systems: Carlisle SynTec Systems, headquartered in Carlisle, Pa., has been manufacturing single-ply membrane roofing systems for more than half a century. Carlisle SynTec Systems is a business segment of Carlisle Construction Materials and has manufacturing facilities in Carlisle, Pa.; Greenville, Ill.; Senatobia, Miss.; and Tooele, Utah.
