

Firestone Building Products Honors J. Stevens Construction, Inc. With the 2015 Partner in Quality Award

Local Firm Honored for Excellence in Roofing System Installations

MUSKEGON, Mich. – Firestone Building Products Company, LLC, a leading manufacturer and supplier of a comprehensive “Roots to Rooftops” product portfolio, presented J. Stevens Construction, Inc. with the 2015 Partner in Quality Award. The Muskegon firm is among only 133 Firestone Building Products Red Shield™ Licensed Roofing Contractors in the United States, Canada and Mexico achieving the award.

Firestone Building Products Red Shield Licensed Roofing Contractors are required to complete extensive product installation training. Projects are backed by the Firestone Building Products Red Shield™ Warranty as a testament to each contractor’s skill and attention to detail. Warranty terms can range from five to 30 years, depending on the commercial roofing system.

Winners must:

- Install a minimum of eight warranted Firestone Building Products roofs in 2014 and four warranted roofs per year for each of the prior four years.
- Maintain at least 1 million square feet of Firestone Building Products roofs under warranty.
- Achieve an annual Quality Incidence Rating (QIR) of 1.25 or less (QIR measures each contractor’s performance based on warranty repair incidences per million square feet under warranty).

“Our Firestone Building Products Red Shield Licensed Roofing Contractors are among the best in the business,” said Tim Dunn, president of Firestone Building Products. “In addition to the number of warranted jobs these contractors have completed, each has demonstrated exemplary attention to detail and craftsmanship, and we are proud to honor them with the prestigious Partner in Quality Award.”
